2015-16 Transition
District Accountability

- **No AMO targets will be set.** 2015-16 will establish a new baseline, and we will not compare proficiency rates to 2014-15.

- Achievement goals for districts will be measured based on **relative performance, i.e. percentile ranks.**
  - This method is similar to the percentile ranking used for schools to determine Reward status.

- **TVAAS scores for use in district accountability will be generated in 2015-16** for ELA and math. Those metrics will be included as a pathway.

- Achievement and Gap Closure will be determined based on **two pathways** during the transition year, compared to the **three pathways** that will be available in 2016-17 and beyond.

Step 2: Achievement Status

Districts will earn score points ranging from 0-4 for each content area based on all students' performance in the following two pathways:

- **Relative Performance** – Whether the district declined, maintained, or improved their percentile rank in terms of the percentage of students proficient/advanced (compared to last year)
- **TVAAS** – The TVAAS level achieved based on the growth index

Step 3: Gap Closure Status

To determine Gap Closure Status, we will evaluate the performance of students in the following four subgroups: Black/Hispanic/Native American (BHN), Economically Disadvantaged (ED), English Language Learners (ELL), and Students with Disabilities (SWD).

Districts will earn score points ranging from 0-4 for each subgroup’s performance in each content area for both of the following pathways:

- **Relative Performance** – Whether the district declined, maintained, or improved their percentile rank in terms of the percentage of students proficient/advanced (compared to last year)

- **TVAAS** – The subgroup TVAAS level achieved based on growth index.

Step 3: Gap Closure Status

Each subgroup's overall average is the average of the best score a district receives in each applicable content area for that subgroup. The average across these subgroups is then calculated to arrive at an overall district Gap Closure Status. The same scale is applied to determine performance level as noted below.

<table>
<thead>
<tr>
<th>Average Performance Range</th>
<th>Status Determination</th>
<th>Description of District's Performance</th>
</tr>
</thead>
<tbody>
<tr>
<td>&gt; 0.00 and &lt; 2.00</td>

</tr>
<tr>
<td>≥ 3.00</td>
<td>Exemplary</td>
<td>District is exceeding targets in many areas and greatly exceeding targets in some areas.</td>
</tr>
</tbody>
</table>

If a district fails the Minimum Performance Goal, as detailed in Step 1, the district automatically received a determination of In Need of Improvement.
Step 4: Final District Determination

The final step is to determine a district's final determination. To arrive at the final district determination, the average for the Achievement and Gap Closure performance is calculated and applied to the scale below, which is the same scale as used throughout.

<table>
<thead>
<tr>
<th>Achievement &amp; Gap Closure Average (Range)</th>
<th>District Determination</th>

</tr>
</thead>
<tbody>
<tr>
<td>&gt; 0.00 and &lt; 2.00</td>

<td>On average, the district is making progress but not meeting expectations.</td>
</tr>
<tr>
<td>≥ 2.00 and &lt; 3.00</td>
<td>Achieving</td>
<td>On average, the district is meeting but not exceeding expectations.</td>
</tr>
<tr>
<td>≥ 3.00</td>
<td>Exemplary</td>
<td>On average, the district is exceeding expectations.</td>
</tr>
</tbody>
</table>

If a district fails the Minimum Performance Goal, as detailed in Step 1, the district automatically received a determination of In Need of Improvement.
Step 4: Example Final District Determination

On average, Bartlett City Schools is *exceeding expectations*. Our district is exceeding targets in many areas and greatly exceeding targets in some areas.
